## SUMMARY

Self-taught and motivated **Web Developer** with 2+ years of experience. Skilled in **HTML**, **CSS**, **JavaScript**, and familiar with **Front-end** libraries such as **React.js**, **Vue.js**, and **jQuery**.

## WORK EXPERIENCE

Imen Rayaneh Amirkabir

Web Developer

July 19 - July 21

- Developed responsive **UI** using **imperative JS**, **HTML5** and **CSS3** by translating **sketches** and **wireframes** into high-quality code and engaging in web creative **design**
- Developed **portal** website to provide the information for B2B clients, with different access levels, by providing secured forms, charts, tables, and documents, using **LAMP stack**, which obtained customer demands for further development up to 2 more phases
- Replaced **SQL** with **Elasticsearch** queries to help the portal with fetching the data 50x faster

## SIDE PROJECTS

GitHub

Developer

Nov 21 - Present

- Developing **web service** to present general information of public **IP** addresses using **Bootstrap**, **React.js**, **Node.js**, and **Elasticsearch**
- Debugged security issues for WPGraphQL (**WordPress plugin**), which helps users comply with **JWT** authentication standards and prohibit vulnerable mutation requests using **GraphQL**
- Developed **Next.js** example with **authentication** system which uses signed and encrypted cookies to store session data with **JWT**, which relies on next-iron-session and SWR
- Developed multiple **SPA** portfolio websites with new visual ideas using **React.js**, **Tailwind CSS**, and **vector images**
- Developed personality diagnosis **web application** by providing on-line exams for students, using **Laravel** and **Vue.js** with over 2k users

Iranian Society for Biomedical Engineering

Web Developer

Dec 19 - Jan 22

- Developed bilingual **CMS website** for Iranian biomedical engineering annual conference events using **Laravel** which was visited more than 50k last year
- Developed bilingual **Single-page application** with content management dashboard and multiple access levels using **Laravel**, **React.js**, **Vue.js**, and **W3.CSS**, which connects students to their supervisors and shares their courses, research, keywords, and media
